

AN ENCYCLOPEDIA OF ARAB TRIBES

History, Society, and Transformation

ABOUT THE BOOK

This comprehensive encyclopedia explores the rich heritage, diverse societies, and remarkable transformation of Arab tribes across the Arab world. From their ancient origins and genealogy to social structures, cultural values, and economic life, the book presents a detailed and scholarly account of tribal civilization. It also examines tribal life in modern nation-states and the evolving role of tribes in the 21st century, making it an essential reference for researchers, students and readers interested in Arab history and culture.
